

# RECOGNISING YOUTH DAY

*At DRDGOLD, we believe that youth empowerment begins with education, and is enhanced by opportunity. We aim to bring both to the young people in our communities.*

## Supplementary teaching in key subjects 3 subjects taught at 7 chosen schools

Giving young people a grounding in mathematics, science and accountancy affords them access to a university education, and ultimately a wider spectrum of in-demand careers. DRDGOLD strives to close the education gap experienced by the learners in our community through learning programmes at selected schools, led by teachers who are passionate about these subjects and dedicated to learner success.

## Funding educational journeys

**R1.2 million**  
spent to fully-fund 9 bursars in 2021

DRDGOLD's bursary scheme affords learners the opportunity to attend university, fulfil their potential and make a contribution to our organisation, their communities, the country and its economy.

## Growing skilled artisans

Since inception  
**725**  
learnerships offered

In 2021  
**60 learners**  
currently engaged

The structured learning and artisan training we offer the youth in our communities equips them with skills and fully accredited qualifications they can use to be productive throughout their lifetime.
