

# GROUP RESULTS: KEY FEATURES

## Q4 2014 v Q3 2014

- Gold production up 13% to 34 143oz
- Cash operating costs down 5% to US\$1 120 per oz

## FY2014 v FY2013

- Gold production down 9% to 132 909oz
- Cash operating costs up 2% to US\$1 118 per oz

## DEAR SHAREHOLDER

While the company's results for FY2014 reflect the negative impact of previously reported problems experienced during the year relating to the integration of Ergo's new High Grade Section and existing Low Grade Section, it is very pleasing to report that, in the final quarter of the year, a significant increase in production and revenue, quarter on quarter, was recorded.

These improvements flowed both from improved volume throughput and a significant improvement in metallurgical efficiencies. The response of the Low Grade Section was immediate following the suspension of the High Grade Section; carbon efficiencies and dissolved losses returned to former steady state levels and, in the month of June, gold production was the highest achieved for the 12-month period, at 388kg.

We previously reported a small number of planned engineering upgrades to the High Grade Section, mainly to mitigate the effect of potential power interruptions and to better manage the water balance in the event of a higher than normal influx of rainwater. These are all on schedule and ready for test work to begin. We also reconfigured the plant to allow one third of total throughput to be separately leached, loaded and eluted. This will be the base case against which the impact of the Flotation and Finegrind ("FFG") section will be tested.

Initially, we planned to begin test work in September so as not to incur the cost of power utility Eskom's winter tariff; however, the June quarter's improved production and cashflow meant we were able to start in the middle of August.

#### Q4 FY2014 V Q3 FY2014

#### **OPERATING REVIEW**

Gold produced was 13% higher quarter on quarter at 34 143oz, reflecting improvements both in throughput and average yield. A 5% increase in throughput to 6 131 000t resulted from fewer power- and weather-related stoppages than were experienced in the previous quarter. These factors, together with improvements in loaded carbon efficiencies, also contributed to improved plant operating conditions, leading to a 7% rise in the average yield to 0.173g/t. Gold sold was 9% higher at 32 857oz, a consequence of higher gold production. Cash operating costs were 8% lower at R379 039/kg, due also to the increase in gold production. All-in sustaining cash costs were 27% lower at R339 315/kg. Capital expenditure was 30% lower at R20.2 million, reflecting completion of the FFG capital project.

#### **FINANCIAL REVIEW**

Higher production and sales offset the impact of a 4% decline in the average Rand gold price received to R437 770/kg and, as a result, revenue increased by 5% quarter on quarter to R447.4 million. After accounting for a 5% rise in net operating costs to R394.8 million, due mainly to the processing of sand material through the City Deep plant and the effect

of power utility Eskom's tariff increase and winter tariff effective for the month of June, operating profit was 3% higher at R52.6 million. The cash operating margin increased by 44% to 13% and the all-in sustaining costs margin improved to 22% from -2% in the previous quarter. Earnings before interest, taxes, depreciation and amortisation ("EBITDA") improved substantially to R114.1 million from R16.0 million, and headline earnings per share of 10 South African ("SA") cents were recorded compared with a headline loss of 7 SA cents per share.

#### FY2014 V FY2013

#### **OPERATING REVIEW**

While throughput year on year increased by 3% to 23 908 000t, this did not offset the impact of a 12% decline in the average yield to 0.173g/t. Consequently, gold production was 9% lower at 132 909oz. Gold sold was 8% lower at 134 420oz due to lower gold produced. Cash operating costs were 20% higher at R372 671/kg due also to lower gold production and all-in sustaining costs were 10% higher at R401 691/kg. Capital expenditure was 56% lower, reflecting the completion of the FFG circuit.

#### **FINANCIAL REVIEW**

Lower gold production and sales, together with a 6% decline in the average Rand gold price received to R432 775/kg, resulted in a 13% drop in revenue to R1 809.4 million for the year. After accounting for net operating costs — 11% higher at R1 549.4 million — operating profit was 62% lower at R260.0 million. The cash operating margin was 57% lower at 14% and the all-in sustaining costs margin 64% lower at 7%. EBITDA was down 60% at R204.0 million with a headline earnings of R0.7 million.

#### **RESERVES AND RESOURCES**

DRDGOLD's total attributable mineral reserves were 12% lower in 2014 at 1.5Moz while total attributable mineral resources were down less than 1% at 37.04Moz.

The FY2014 reserve and resource information was prepared in compliance with the South African Code for Reporting Exploration Results, Mineral resource and Mineral reserves ("SAMREC") by DRDGOLD's designated competent person, Mr V Labuschagne, who is an employee of DRDGOLD.

#### **CORPORATE ACTIVITY**

After year-end, DRDGOLD shareholders were informed that the company had entered into a R220 million agreement to dispose of the underground mining and prospecting rights held by East Rand Proprietary Mines Limited ("ERPM"), and certain other assets and liabilities in the related mining areas with a carrying value of (R11.6 million), to ERPM South Africa Holdings Proprietary Limited, a company nominated by Walcot Capital.

With a view to right-sizing the corporate footprint, and also with a view to reducing costs, we have been engaged in recent months in an exercise to restructure the executive and senior management. The corporate complement has now been reduced by 26%, and we expect to realise

a saving of some R12.0 million a year. The corporate office will also be relocated to the former Crown general offices following the expiry of our current lease.

The management and staff of DRDGOLD did not earn any performance bonuses at financial year-end.

#### **BOARD CHANGES**

Also after year-end, the company announced the termination of employment by mutual agreement of Chief Financial Officer ("CFO") Francois van der Westhuizen and his resignation as an executive director. Former Mintails Limited CFO Anthon Meyer has been appointed in an acting capacity as CFO and executive director.

#### SUSTAINABLE DEVELOPMENT

In FY2014, 531 number of Grade 12 scholars from three schools enrolled at the Ergo Business Development Academy ("EBDA") for additional maths and science classes. In 2013 the average pass rate for these subjects at their schools increased to between 58% and 85% and we hope to see these trends continue. Due to the success of the programme, EBDA is this year also offering additional accountancy classes.

During FY2014, 191 new community learners were enrolled at EBDA for these three-year National Certificate courses: electrical, plating, welding, fitting, rigging, millwright, boilermaker and diesel mechanic. This brings the total number of community learners enrolled at EBDA to 292. During this year 63 community learners completed their courses successfully.

All employees have participated in a Best Life workshop to understand the benefits of ICAS, an employee wellness and counselling service. During FY2014 we piloted a financial literacy training initiative focusing on long term planning for financial stability. Attended by 79 Ergo and EBDA employees, the course was well-received and successful. We will roll out this training to all employees during the next three years.

Our target is to reduce dust fall out incidents exceeding residential limits (<600mg/d) from our existing sites by 10% a year. Our exceedances for the year ended 30 June 2014 reduced by 57% from 4.1% to 1.8%.

As part of our strategy to reduce reliance on potable water and to ensure a sustainable supply of water for the future, Ergo has entered into an agreement with the local municipality to invest R22 million into the construction of infrastructure to supply treated sewage water to its main reclamation sites. We also have an agreement with the TCTA to supply up to 8Ml of treated AMD for our operations.

In the past year, we released 215.ha of cleared land for development.

#### DIVIDEND

The DRDGOLD board has declared a final dividend of 2 South African (SA) cents per ordinary share for the year ended 30 June 2014 as follows:

- the dividend has been declared out of income reserves;
- the local Dividends Tax rate is 15% (fifteen per centum);
- there are no Secondary Tax on Companies credits to be utilised;
- the gross local dividend amount is 2 SA cents per ordinary share for shareholders exempt from the Dividends Tax;
- The net local dividend amount is 1.7 SA cents per ordinary share for shareholders liable to pay the Dividends Tax;
- DRDGOLD currently has 385 383 767 ordinary shares in issue (which includes 6 155 559 treasury shares); and
- DRDGOLD's income tax reference number is 9160/013/60/4.

In compliance with the requirements of Strate, given the company's primary listing on the JSE Limited, the salient dates for payment of the dividend are as follows:

Last date to trade ordinary shares cum dividend Friday, 7 November 2014
Ordinary shares trade ex dividend Monday, 10 November 2014
Record date Friday, 14 November 2014
Payment date Monday, 17 November 2014

On payment date, dividends due to holders of certificated securities on the SA share register will either be electronically transferred to the shareholders' bank accounts or, in the absence of suitable mandates, dividend cheques will be posted to such shareholders.

Dividends in respect of dematerialised shareholdings will be credited to shareholders' accounts with the relevant CSDP or broker.

To comply with the further requirements of Strate, between Monday, 10 November 2014 and Friday 14 November 2014, both days inclusive, no transfers between SA and any other share register will be permitted and no ordinary shares pertaining to the SA share register may be dematerialised or rematerialised.

The currency conversion date for the Australian and United Kingdom registers will be Monday, 17 November 2014.

To holders of American Depositary Shares

Each American Depositary Share ("ADS") represents 10 ordinary shares:

ADSs trade ex dividend on NYSE Wednesday, 12 November 2014
Record date Friday, 14 November 2014
Approximate date of currency conversion Friday, 21 November 2014
Approximate payment date of dividend Monday, 24 November 2014

Assuming an exchange rate of R10.61/\$1, the dividend payable on an ADS is equivalent to 1.6 US cents for shareholders liable to pay the dividend tax. However, the actual rate of payment will depend on the exchange rate on the date for currency conversion.

#### LOOKING AHEAD

Testwork on the FFG circuits will continue until at least the end of Q2 FY2015. The results will inform the rate of build-up of material passing through both the High and Low Grade Sections to full capacity.

In order to take full advantage of our considerable infrastructure we are actively setting our sights on extending the reach of Ergo either through co-operation or acquisition. This year we started to process higher grade materials sourced over the fence by an independent operator. We will continue to entertain this model to optimise our reach and supplement our resource.

We are also keen to establish, by a continued focus on research and testwork, the new opportunities offered by a successful FFG layout.

#### NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

#### 1. BASIS OF PREPARATION

The condensed consolidated financial statements are prepared in accordance with the requirements of the JSE Limited Listings Requirements for preliminary reports and the requirements of the Companies Act of South Africa. The Listings Requirements require preliminary reports to be prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards (IFRS) and the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Pronouncements as issued by Financial Reporting Standards Council and to also, as a minimum, contain the information required by IAS 34 Interim Financial Reporting. The accounting policies applied in the preparation of the condensed consolidated financial statements are in terms of IFRS and are consistent with those applied in the previous consolidated annual financial statements, except for the adoption of applicable revised and/or new standards issued by the International Accounting Board (refer note 2).

The condensed consolidated financial statements of DRDGOLD Limited for the year ended 30 June 2014 have been reviewed by Mr J Le Roux of KPMG Inc, the group's auditor. In their review report dated 2 September 2014, which is available for inspection at the Company's Registered Office, KPMG Inc state that their review was conducted in accordance with the International Standard of Review Engagements 2410, Review of Interim Information Performed by the Independent Auditor of the Entity, which applies to a review of consolidated preliminary financial information, and have expressed an unmodified conclusion on the condensed consolidated financial statements.

#### 2. RESTATEMENTS

#### 2.1 Changes in accounting policies

- i) The Group has adopted the new standard IFRS11 Joint Arrangements. The Group previously applied proportionate consolidation for investment in joint arrangements and applied equity accounting from 1 July 2013.
- ii) The Group has adopted IFRS 10 Consolidated Financial Statements. The Group previously consolidated the Guardrisk Cell Captive as a special purpose entity ("SPE") on a line by line basis. Effective from 1 July 2013, the Guardrisk Cell Captive is not considered to be controlled by the Group and is therefore not consolidated. The Group is considered to have a right to the funds held in the Guardrisk Cell Captive and therefore recognised a reimbursive right to these funds in the hands of Ergo under IFRIC 5 Interest arising from Decommissioning, Restoration and Environmental Rehabilitation Funds.

#### 2.2 Impact of applying IFRS 10 on the quarterly results

The impact of the adoption of IFRS 10 (refer to 2.1 ii – above) on the current and comparative periods was not quantified or reported on in the quarterly financial statements for the three quarters preceding the quarter ended 30 June 2014.

The results for the comparative periods of the quarter and year ended 30 June 2013 and the quarter ended 31 March 2014 as well as the statement of financial position at these dates have been restated with the effects of IFRS 10, IFRIC 5 and IFRS 11 where relevant.

#### IMPACT OF RESTATEMENTS ON THE QUARTER ENDED 31 MARCH 2014

	Quarter ended		Quarter ended
	31 March 2014 as	IFRS 10 and	31 March 2014
	stated previously	IFRIC 5	Restated
	Unaudited	Unaudited	Unaudited
Adjustments to the condensed consolidated statement of financial position	Rm	Rm	Rm
Environmental rehabilitation trust funds and investments	186.5	0.8	187.3
Non-current investments and other assets	128.9	0.1	129.0
Trade and other receivables*	108.9	(0.4)	108.5
Deferred tax liability	99.4	6.0	105.4
Trade and other payables*	212.5	(0.4)	212.1
Equity of the owners of the parent	1 333.0	(27.4)	1 305.6
Non-controlling interest	200.8	22.3	223.1

<sup>\*</sup> Trade and other receivables exclude tax receivable and trade and other payables exclude post retirement and other employee benefits that were previously reported under one caption respectively.

#### 3. IMPAIRMENTS

The Group recorded an impairment of R56.6 million for the year consisting of:

- R5.3 million against the investment in Village Main Reef Limited.
- R12.4 million against property plant and equipment.
- R2.7 million impairment reversal against the investment in West Wits Mining South Africa Proprietary Limited.
- R1.4 million against the investment in West Wits Mining Limited
- R40.2 million against the investment in Rand Refinery Proprietary Limited (refer below).

#### Impairment of Rand Refinery Proprietary Limited ("Rand Refinery")

Following the adoption of a new Enterprise Resource Planning ("ERP") system in 2013, Rand Refinery experienced implementation difficulties which led to a difference between the actual inventory and the accounting records of approximately 87 000oz of gold. Due to the uncertainty around Rand Refinery's inventory and the time it is taking to resolve this matter, the Group has assumed that the 87 000oz gold shortfall will not be recovered. Management therefore estimated the fair value of the investment in Rand Refinery to be zero. The accumulated fair value adjustments recognised in

Other Comprehensive Income has been reversed and the initial cost of the investment has been recognised as an impairment in profit and loss for the period.

#### 4. ENVIRONMENTAL REHABILITATION TRUST FUNDS AND INVESTMENTS

Included in environmental rehabilitation trust funds and investments is restricted cash of R13.5 million.

#### 5. LOANS AND BORROWINGS

Included in loans and borrowings is a Domestic Medium Term Note Programme ("DMTN Programme") under which DRDGOLD can issue notes from time to time. DRDGOLD raised a total of R165 million under the DMTN Programme in July and September 2012. The different unsecured notes issued mature 12 (R20.0 million), 24 (R69.5 million) and 36 (R75.5 million) months from the date of issue and bear interest at the three month Johannesburg Inter–bank Acceptance Rate (JIBAR) rate (5.725% as at 30 June 2014) plus a margin ranging from 4% to 5% per annum.

On 3 July 2014, DRDGOLD repaid the amount of R69.5 million.

#### 6. ASSETS AND LIABILITIES HELD FOR SALE

In June 2014 management was committed to a plan to sell the underground mining and prospecting rights held by ERPM including the related liabilities. Accordingly these assets and liabilities is presented as a disposal group held for sale. The fulfilment of the conditions precedent associated with regulatory approvals is expected within 12 to 18 months (refer to note 9).

#### 7. MOVEMENT IN PROVISION FOR ENVIRONMENTAL REHABILITATION

An amount of R86.6 million was credited to the statement of profit or loss resulting from a decrease in the estimated cost to rehabilitate. This is based on the implementation of a different technique to vegetate the Crown complex as well as the increased use of "grey water" in rehabilitation. An updated survey also resulted in the decrease of the area to be vegetated.

#### 8 ASSETS AND LIABILITIES MEASURED AT FAIR VALUE

The different classes of assets measured at fair value (all available-for-sale financial assets), the movements in each class, as well as the respective level of the fair value hierarchy under which it falls is outlined in the table below:

		LEVEL 1		LEVEL 2		LE	EVEL 3		
	Investment in Village Main Reef Limited	Investment in West Wits Mining Limited		Investment in Village Main Reef Limited		Rand Refinery Proprietary Limited			
	65 714 286 Unemcumbered shares	38 250 000 Unemcumbered shares	Total	20 000 000 Shares held in escrow	Total	44 348 Unemcumbered shares	Other	Total	Total
	R'000	R'000	R'000	R'000	R'000	R'000	R'000	R'000	R'000
Balance at beginning of the year	29 571	_	29 571	4 500	4 500	93 320	164	93 484	127 555
Acquired during the year	-	5 246	5 246	_	_	-	7	7	5 253
Gain/(loss) on fair value adjustment	1 315	_	1 315	200	200	(53 140)	_	(53 140)	(51 625)
Impairment	(4 600)	(1 435)	(6 035)	(700)	(700)	(40 180)	_	(40 180)	(46 915)
Transfers between levels in the fair value hierarchy	-	_	_	_	_	_	_	_	_
Balance at end of year	26 286	3 811	30 097	4 000	4 000	-	171	171	34 268

The group applied the following valuation methodologies in the measurement of the fair value of each of the above classes:

- Level 1: The fair value of listed investments is determined by reference to published price quotations from recognised securities exchanges and is translated at the spot exchange rate obtained from a recognised financial institution as at measurement date.
- Level 2: The fair value of listed investments is determined by reference to the valuation methodology outlined in Level 1 above and is adjusted with a discount factor associated with the characteristics of the instrument.
- Level 3: The fair value of unlisted investments is based on directors' valuations which are made using the net asset value of the investee. Other market data is also considered.

The group applied the following inputs in the measurement of the fair value of each of the above classes

Quoted price per share				
ZAR (c)	40	_	40	
AUD (c)	_	1	_	
Exchange rate				
ZAR:AUD	_	9.96411	_	
Discount rate	-	_	50%	
Other inputs				Refer to Note 3

#### 9. SUBSEQUENT EVENTS

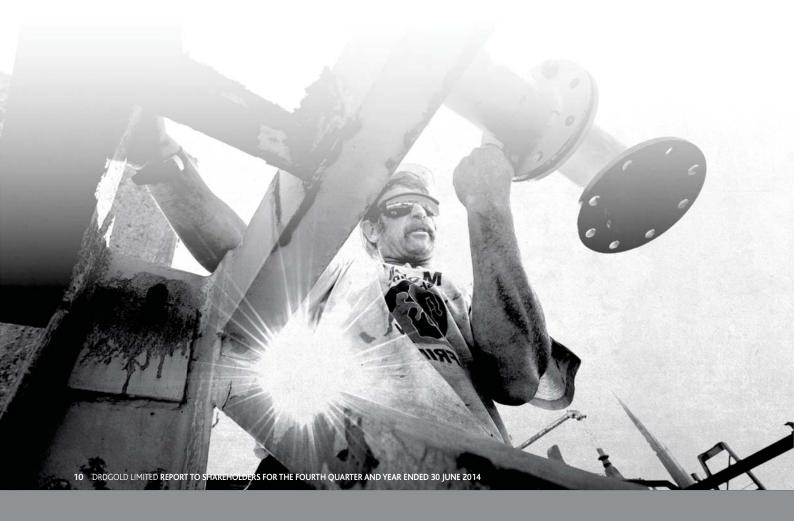

On 25 July 2014, DRDGOLD announced that its subsidiaries EMO and ERPM collectively had entered into an agreement to dispose of the underground mining and prospecting rights held by ERPM, and certain other assets on the related mining areas, for an agreed consideration of R220 million and subject to various suspensive conditions.

#### FORWARD LOOKING STATEMENTS

Many factors could cause the actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements, including, among others, adverse changes or uncertainties in general economic conditions in the markets we serve, a drop in the gold price, a sustained strengthening of the Rand against the Dollar, regulatory developments adverse to DRDGOLD or difficulties in maintaining necessary licenses or other governmental approvals, changes in DRDGOLD's competitive position, changes in business strategy, any major disruption in production at key facilities or adverse changes in foreign exchange rates and various other factors.

These risks include, without limitation, those described in the section entitled "Risk Factors" included in our annual report for the fiscal year ended 30 June 2013, which we filed with the United States Securities and Exchange Commission on 25 October 2013 on Form 20-F. You should not place undue reliance on these forward-looking statements, which speak only as of the date thereof. We do not undertake any obligation to publicly update or revise these forward-looking statements to reflect events or circumstances after the date of this report or to the occurrence of unanticipated events. Any forward-looking statement included in this report have not been reviewed and reported on by DRDGOLD's auditors.

#### **RESULTS**

The condensed consolidated financial statements of DRDGOLD Limited for the year ended 30 June 2014 are available on the DRDGOLD Limited website as well as at the Company's registered office.
